

THE ECONOMICS OF CORRUPTION 2010
- PRESENTATIONS -

Requirements

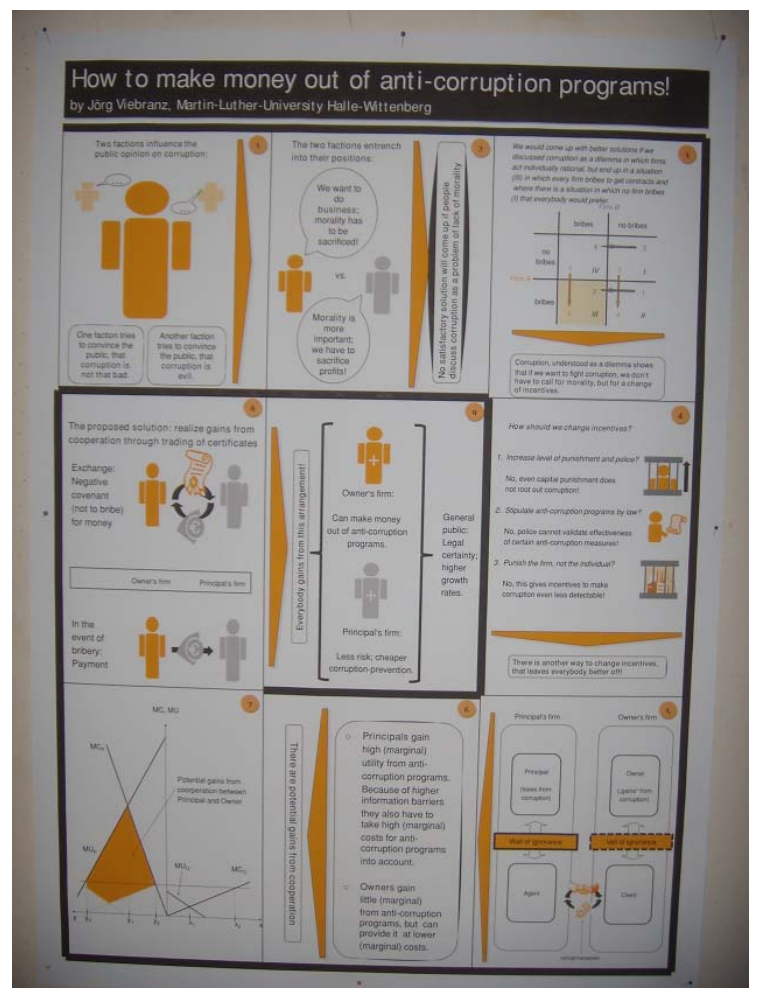

Except for graduate students, all external participants are asked to present their latest research efforts and/or findings, or their organization's/country's anti-corruption efforts. The duration of a presentation must not exceed 10 minutes and should include a maximum of 6-9 power point slides (font size 20)

Posters

Print each slide of your presentation (color or black and white) on Din A4 (or similar) and bring it with you on the first day of the course. We will assemble the sheets to a poster and expose all presentations throughout the week. Please ensure that all texts and graphics of your poster are easily readable.

Content

Make sure your presentation is appropriate for the given interdisciplinary audience. Clearly identify your research question or reform proposal. Be as specific as possible. Don't enumerate multiple laws, methods or proposals without explaining them in detail. Include graphics, tables or photos. Take position and come to a clear conclusion!
